## SEFCO-2018

- SEFCO-2018 will provide the platform to debate on the various potential transitions happening within the energy sectors, and help to identify the gap between its theoretical solutions and its practicality.
- Provide networking opportunities and aims to spread the knowledge on the recent discoveries and challenges specific to the energy sector.
- The symposium will have plenary and invited talks by eminent and highly acclaimed national speakers from academia, research institutes and industry. It will specially bring young researchers on a platform with an unique experience for professional development.
- We assist refineries in value addition of petroleum products, provides technical services to the petroleum industry, impart training to the personnel, assists BIS in formulation of standards for petroleum products and conducts techno-economic feasibility studies & market demand surveys of petroleum products.
- For more information visit : <http://www.iip.res.in/>

## Why sponsor us?

The SEFCO-2018 has several sponsorship packages available, providing sponsors with a choice of exposure related to financial commitment. At SEFCO-2018, the sponsors will have:

- CSIR-IIP, an ISO 9001:2008 institute, is a national laboratory under CSIR which carries out research and development for downstream sector of the hydrocarbon industry.
- The institute has developed and transferred more than seventy technologies, processes and products to industry, in the area of petroleum refining, natural gas, petrochemicals, chemicals and utilization of petroleum products out of which many has been commercialized.
- An opportunity to network with a young talent pool and aspiring energy scientists
- The tailored sponsorship options to fit into budget
- An opportunity to showcase your products and services through souvenirs to a wide range of customers ranging from academia to industry
